Not the whale voices she suddenly hears in her head, not the ex who won't take no for an answer, and especially not the gorgeous figment of her imagination who keeps saving her from the fiery hell of her dreams. Gavin Cassidy hasn't been called to help a human Wyldling in over a year, which is fine by him. Still blaming himself for the death of his partner, he keeps the guilt at bay by indulging in every excess his rock star

He never expects to fall for the feisty Dr. Morgan nor does he realize he may have to sacrifice the woman he loves to save an entire country. Biographie de l'auteur Kendall Grey, word wrangler, whale warrior, wicked wench, and lover of tongue-tripping alliteration, was born without an off-switch between her brain and mouth. Shes been called the Flux Capacitor of Twitter and A little package of love all wrapped up in F-word paper, but shes really just a maniacal writer relaying eyewitness accounts of the rave inside her head. She writes urban fantasy with strong romantic elements and also dabbles in erotica and horror on occasion. Kendall lives off a dirt road near Atlanta, Georgia, but dont hold that against her.
