Description :

Prsentation de l'diteurA sexy cyborg romance in THE PHOENIX ADVENTURES series, and winner of 2015 Prism Award for Best Futuristic Romance.Unlucky-in-love salvage mechanic, Malin Phoenix, didn't intend to get caught up in a coup and kidnapped by a sexy cyborg. But she finds herself swept into an adventure to help the deadly, emotionless CenSec, Xander Saros, retrieve an ancient Terran artifact and save his planet.Soon she's racing across uncharted space and is magnetically drawn to the cyborg whose strong arms and muscled body ignite a desire that burns brighter than a supernova. But Mal can never let herself forget that she can't fall in love with a cyborg who can never love her back.The crowning glory of the

Centax Security program, Xander is heavily enhanced, his emotions dampened to nothing to allow him to be the most efficient, lethal killer in the galaxy. As he and Malin hunt for the remnant of the galaxy's first computer, the Antikythera Mechanism, their quest leads them into the lair of a dangerous technomancer. But Xander can't identify his greatest threat--the enemy or the fascinating woman who's making him feel. Note to readers: This sci fi romance contains a lot of action (think aliens, sci fi pit fighting and very big robots), cool offshoots (some sexy deep space explorers and dashing treasure hunting brothers) and a steamy romance (lots of sexy times between a sassy salvage mechanic and a sexy cyborg). This is treasure hunting sci fi style. So if you like it fast, and fun, and sexy, this is for you! Includes preview of Book 5 of the Phoenix Adventures series, *Beyond Galaxy's Edge*. Q A with the Author Q - How would you describe the Phoenix Adventures series? A - Treasure hunters in space! A few readers have said it's like Indiana Jones set far into the future. All the books in the series are fast, fun thrill-ride treasure hunts for old Earth artifacts. There is lots of action, adventure, space opera, and of course, romance. I'm thrilled the books in the series have won so many awards from a SFR Galaxy Award for Most Fun New Series to a Prism Award for Best Futuristic Romance (*On a Rogue Planet*) to the Romance Writers of Australia Romantic Novella of the Year (*Beneath A Trojan Moon*). Q - Why did you want to write the series? A - I love action, adventure and romance. And I love science fiction romance and all the endless possibilities. Combine all that with a fascination with ancient artifacts and the Phoenix Adventures were born. I really wanted to capture what the expeditions of old must have felt like - trekking through jungles or desert sands and stumbling across crumbling ruins. Since all the good stuff has been found nowadays, I looked to the future and jetted off into space. Q - What order should I read the books in? A - All the Phoenix Adventures books are stand-alone adventures - many readers have entered the series with later books in the series. However, characters from the early stories do appear in later books, so I think it adds something to the reading experience to read them in order. Here's the order I suggest: - *Among Galactic Ruins* (prequel)- *At Star's End*- *In the Devil's Nebula*- *On a Rogue Planet*- *Beneath a Trojan Moon* (novella)- *Beyond Galaxy's Edge*- *On a Cyborg Planet* (novella)- *Return to Dark Earth*- *On a Barbarian World*- *Lost in Barbarian Space*
